### B. Goals

The following definitions were used in developing the State's goals and objectives:

- *Goals* are the general ends towards which an organization directs its efforts. A goal addresses issues by stating policy intention. They are both *qualitative and quantifiable*, but are not quantified. In a strategic planning system, goals are ranked for priority. Goals stretch and challenge an organization, but they are realistic and achievable.
- *Objectives* are clear targets for specific action. They mark quantifiable interim steps toward achieving an organization's long-range mission and goals. Linked directly to an organization's goals, objectives are *measurable, time-based statements of intent*. They emphasize the results of an organization's actions at the end of a specific time period.

The goals and objectives set forth below are taken from the Texas Department of Housing and Community Affairs' State of Texas Five-Year Consolidated Plan. With the above definitions in mind, please check each proposed objective from your Five-Year and Annual Plan which supports the stated goal.
